ABOUT ME

Highly skilled and versatile Frontend Developer with 3+ years of experience in creating responsive and user-friendly mobile and web applications. Proficient in utilizing modern tools, frameworks, and best practices to deliver efficient and visually appealing solutions. Adept in collaborating with cross-functional teams to translate design concepts into seamless digital experiences. Passionate about delivering impactful, innovative solutions that exceed user expectations.

SKILLS

- Frontend Technologies: HTML5, CSS3, JavaScript, TypeScript
- Frameworks: React, React Native, Next.js, Tailwind CSS, Bootstrap, SCSS
- State Management: Redux, React Hooks, Context API
- API Testing Tools: Postman, Swagger
- Backend Technologies (Additional): Node js, Express js, NestJS, JWT, Firebase, MongoDB, PostgreSQl & Prisma
- Communication Skills: Fluent in English with excellent verbal and written communication abilities
- Time Management Skills: Efficient time management to meet deadlines and deliver quality results
- Complex Problem-Solving Skills: Proficient in analyzing challenges and implementing effective solutions
- Team Player & Leadership Skills: Ability to collaborate with diverse teams, foster cooperation, and lead projects to success

WORK EXPERIENCE

Demlinks Technologies - Frontend Developer
May 2021 – Present

- Developed and maintained responsive web applications using React and Next.js.
- Collaborated with UI/UX designers to ensure pixel-perfect implementation of designs.
- Integrated APIs using Postman for testing and validation, improving overall system efficiency.
- Built reusable components and libraries, reducing development time by 25%.
- Migrated legacy CSS to SCSS and Tailwind CSS, improving maintainability and design consistency.
- Optimized web applications for performance, achieving a significant reduction in load times.

PayVerve - Frontend Developer
April 2023 – Nov 2023

- Developed responsive user interfaces for the payment gateway platform using React.js and Tailwind CSS.
- Collaborated with the backend team to integrate secure APIs for payment processing and transaction tracking.
- Implemented dynamic dashboards for users to monitor transactions in real time.
- Optimized the website for performance, achieving a significant reduction in load times.
- Utilized Redux for efficient state management in handling user sessions and payments.
- Wrote automated tests to ensure a seamless user experience and consistent functionality.
- Participated in Agile development processes, including daily stand-ups and sprint planning meetings

Tella Technologies – Mobile Developer
Sep 2024 – present

- Actively developing a financial technology mobile application using React Native, targeting both Android and iOS platforms.
- Collaborating with backend developers to integrate RESTful APIs for secure and efficient transaction management.
- Designing and implementing reusable components for consistency and improved maintainability.
- Building state management logic with Redux to handle complex app flows efficiently.
- Conducting thorough testing of app features using tools like Postman to validate API integrations.
- Collaborating with designers to translate wireframes into intuitive and responsive user interfaces.
- Ensuring the application adheres to financial compliance and security standards during development.

EDUCATION

Bachelor of Science – Computer Science
Federal University of Oye Ekiti
Graduated: 2024

Senior School Certificate
Eucharistic Heart of Jesus Model College
Graduated: 2019
